208 L | 1330357-208

**SPECIFICATIONS** DIN 51515 (L-TD) | ISO 6743/0

**FABRICATION** MINERAL

**RECOMMENDATIONS** BRITISH STANDARD BS 489: 1999 | SIEMENS TLV 9013 04

**RAVENOL Turbinenöl T 100** is produced for the lubrication of gas and steam turbines as well as turbo compressors with and without transmission according to the specifications of DIN 51 515-2.

**RAVENOL Turbinenöl T 100** is based on high quality mineral base oils with agents to increase the corrosion protection and aging resistance.

**RAVENOL Turbinenöl T 100** is a universal mineral oil for turbines of especially chosen refined base oils with a natural high viscosity index. So-called "metal deactivators" are added to the turbine oil in addition to the normal additives in order to guarantee the excellent characteristics.

## Application Notes

**RAVENOL Turbinenöl T 100** is used in fixed gas and steam turbines as well as electrical machines or machines driven by steam turbines like generators, compressors, pumps and transmissions.

**RAVENOL Turbinenöl T 100** can also be used for the lubrication of hydraulic systems, compressors, gear transfers and bearings in case of problems of the contamination with water because a high protection against rust and oxidation is requested.

## Characteristics

**RAVENOL Turbinenöl T 68** offers:

- an excellent thermic and oxidative stability
- an excellent viscosity temperature behaviour
- a high and stable viscosity index
- a very good oxidation stability also at very high temperatures
- a good protection against corrosion of Ferro and non Ferro metals
- an excellent water separation behaviour
- a very good air separation behaviour which excludes foam formation as far as possible
- a low pour point
- a good corrosion behaviour
- an excellent water separation behaviour / demulsifying behaviour

Property	Unit	Data	Audit
Density at 20°C	kg/m <sup>3</sup>	868,0	EN ISO 12185
Viscosity at 100°C	mm <sup>2</sup> /s	11,1	DIN 51562
Viscosity at 40°C	mm <sup>2</sup> /s	100	DIN 51562
Viscosity index VI		96	DIN ISO 2909
Pourpoint	°C	-21	DIN ISO 2592
Flash point (COC)	°C	240	DIN ISO 2592
