RAVENOL FORKOIL Light 5W is a fully synthetic fork oil on ester base which was developed for all forks of high performance motorbikes and especially for USD forks. The synthetic components and the excellent viscosity index of **RAVENOL FORKOIL Light 5W** offer an optimum damping behaviour at all temperatures as well as an excellent air separation behaviour under all operating conditions – even during racings.

Application Note

RAVENOL FORKOIL Light 5W was developed for the use in all chassis components of two-wheeler vehicles and offers excellent power characteristics. In order to obtain the optimum viscosity for the vehicle and operating condition the fully synthetic fork oils are miscible among each other.
