

RAVENOL ATF Flush

Kategorie: Additives

Artikelnummer: 1390501

0.3L | 1390501-300

RAVENOL ATF Flush is an active ingredient concentrate for the cleaning of all types of automatic transmissions. It protects against corrosion and premature wear.

RAVENOL ATF Flush effectively dissolves dirt and sludge deposits in the automatic transmission with cleaning-intensive surfactants and removes them effectively in draining the used oil.

RAVENOL ATF Flush extends the service life of automatic transmissions and secures the optimal switching function.

Application Note

RAVENOL ATF Flush is added to the warm transmission oil for cleaning before the transmission oil change.

Dosage: 300 ml **RAVENOL ATF Flush** is sufficient for an application of up to 8L of transmission oil, regardless of the manufacturer.

Application: Add the contents to the warm gear oil before changing the oil. The oil level must not fall below the minimum. For maximum effect, allow to run for up to 15 minutes. Shift through all gear positions under load changes. Afterwards, replace oil and filter, immediately.

RAVENOL ATF Flush is particularly suitable for use with the RAVENOL Dynamic Exchanger.

Characteristics

- Removes residues in the gearbox
- Ensures optimum shifting function
- Extends the service life of the automatic transmission
- Protects against corrosion and wear
- Suitable for use with ATF cleaning devices such as the RAVENOL Dynamic Exchanger
